

DefaultHandler

```
classDiagram
    class DefaultHandler
    class SMILHandler["csc440.nuf.parser.SMILHandler"]
    SMILHandler --|> DefaultHandler
```

The diagram shows a class hierarchy. At the top is the 'DefaultHandler' class, represented by a rectangle with three horizontal compartments. The top compartment contains the class name. Below it are two empty compartments. At the bottom is the 'csc440.nuf.parser.SMILHandler' class, represented by a rectangle with three horizontal compartments. The top compartment contains the class name. The middle compartment is empty. The bottom compartment contains a list of four methods: '+ startElement()', '+ characters()', '+ endElement()', and '+ add()'. A blue arrow with an open triangle head points from the top of the 'csc440.nuf.parser.SMILHandler' class to the bottom of the 'DefaultHandler' class, indicating inheritance.

csc440.nuf.parser.SMILHandler

+ startElement()
+ characters()
+ endElement()
+ add()
