

EntryPoint

```
classDiagram
    class EntryPoint
    class SMIL["csc440.nuf.client.SMIL"] {
        +onModuleLoad()
    }
    SMIL --|> EntryPoint
```

The diagram shows a class hierarchy. At the top is a class box for 'EntryPoint' with three empty compartments. Below it is a class box for 'csc440.nuf.client.SMIL' with three compartments: the top one contains the class name, the middle one is empty, and the bottom one contains the method '+ onModuleLoad()'. A blue arrow with an open triangle head points from the SMIL box up to the EntryPoint box, indicating that SMIL inherits from EntryPoint.

csc440.nuf.client.SMIL

+ onModuleLoad()
